Knoxville Iron Company	Knoxville, Tenn	Chain
S. G. Taylor Chain Company	Hammond, Ind	Chain
Upson, Walton Company	Cleveland, Ohio	Anchors
Columbia Steel Company	San Francisco, Cal	Anchors
J. B. Carr–Woodhouse Company, Inc	Troy, N. Y	Chain
Seattle Chain Company	Seattle, Wash	Chain

RECORD

OF

AMERICAN AND FOREIGN

SHIPPING.

THIS RECORD

OF

AMERICAN AND FOREIGN SHIPPING

IS ISSUED

TO SUBSCRIBERS ONLY

The reports of Surveys and Classifications in the RECORD and Supplements are issued by the Bureau to subscribers, and accepted for themselves and all other parties concerned or interested, with the understanding that the Bureau is not responsible for errors or omissions, whether typographical or otherwise. Such errors, or omissions, will be promptly corrected upon notice thereof being given.

No vessels are Classed except such as have been submitted to survey according to the prescribed rules, and the Class approved by the Committee at New York.

LAKE VESSELS

NOTE.—Vessels on the inland waters of the United States, often designated as the Great Lakes, are not subject to the action of the Teredo (marine ship worm) and do not foul or accumulate marine growth; and it is therefore unnecessary to copper or dock them for examination unless required by accident or other special reason.

SUBMARINE SIGNALS

The Bureau, recognizing the value of this apparatus for the preservation of life and property on the sea, will enter in the second column of the Record of Vessels the abbreviation "SUB. SIG.," denoting that such vessel is equipped with Submarine Signal Apparatus.

ABBREVIATIONS.

1. RIG.

Bg.....Brig
½ B.....Half Brig or Hermaphrodite
Bk.....Bark
Bkt.....Barkentine
Brg.....Barge
C B.....Centre Board
C F.....Car Float
Ctm.....Catamaran
Elvr.....Elevator
F. B.....Ferry Boat
Glt.....Galliot
Kch.....Ketch
MV.....Motor Vessel
Plc.....Polacca
S.....Ship
Sch.....Schooner
Scw.....Screw Steamer
Slp.....Sloop
St W.....Stern-wheel Str.
St Ltr.....Steam Lighter
S W.....Side-wheel Str.
T.....Topsail
Trn.....Tern, or Schooner of three masts
Yct.....Yacht
Ywl.....Yawl
4 M.....Four Masts

2. NATION.

Alg.....Algerian
Am.....American or U. S.
Arg.....Argentine
Aus.....Austrian
Blg.....Belgian
Br.....British
Brz.....Brazilian

LY.....Lloyds Yacht Register
N.....Norwegian Veritas

4. REMARKS.

Materials, Fastening, Kind of Rigging, when and how sheathed, Number and kind of Engines and Boilers, Repairs, &c., &c., will be set forth abbreviated as follows:

1. MATERIALS.

A.....Ash
B.....Beech
Bch.....Birch
C.....Cedar
Ch.....Chestnut Cps Cypress
Comp..Composite
E.....Elm
F.....Fir
Ght.....Greenheart
Hf.....Horseflesh
Hk.....Hackmatack
Hw.....Hardwood (as Beech, Birch, Elm).
I.....Iron
I B.....Iron Bark
Ifr.....Iron Framed
Jpr.....Juniper
Lch.....Larch
LO.....Live Oak
Lo.....Locust
Mhg....Mahogany
M.....Hrd & Sft woods m'xd
Mpl.....Maple
O.....Oak
Ol.....Olive
OP.....Oregon Pine
P.....Pine Sp....Spruce
Pr.....Poplar
S C.....Swamp Cypress
SftW....Soft wood (as Hazel & Hemlock).
Stl.....Steel
T.....Teak
Wd.....Wooden
WO.....White Oak
YF.....Yellow Fir
YP.....Yellow or Hard or Pitch Pine

2. FASTENINGS.

Cf.....Copper (or composition) Fastenings
Gicf...Galvanized and Copper Fastenings
Gif.....Galvanized Fastenings
Icf.....Iron and Copper Fastenings
If.....Iron Fastenings
✕.....Steel or Iron strapped on frames
Stl Trs..Steel Trusses

3. SHEATHING.

C.....Sheathed with copper
Ish.....Iron sheathed
M.....Sheathed with yellow metal
Stlsh..Steel sheathed
Wsh....Sheathed with wood
Z.....Sheathed with zinc

4. ENGINES, ETC.

B B P Built up Bronze Propeller
Bcip ..Built up Cast Iron Propeller
Bsp....Built up Steel Propeller
Cih B B..Cast Iron Hub, Bronze Blades
Csh B B....Cast Steel Hub, Bronze Blades
Cl.....Continuous liner
C.....Compound
Cyl....Cylinder
C B....Compound Beam
E.....Expansion
H.....Horizontal
I.....Inclined
IHP ..Indicated Horse power
D.....Diesel
S D....Semi Diesel
O.....Oscillating
Q.....Quadruple
RHP..Registered Horse power
S B P..Solid Bronze Propeller
Scip..Solid Cast Iron Propeller
S S P..Solid Steel Propeller
SHP ..Shaft Horse power
Stm Tbns....Steam Turbines
T.....Triple
V.....Vertical direct acting
VB.....Vertical Beam
WP....Working pressure

5. BOILERS.

Blr.....Boiler
C.....Cylindrical
D B.....Donkey boiler
DB ....Double end Scotch Boiler
SB.....Single end Scotch Boiler
F.....Flue
F B....Fire box boilers
F D....Forced draft
G S....Grate surface
H S....Heating surface
R T....Return tubular
S E....Single ended
V T....Vertical tubular
WT....Water tubular

ABBREVIATIONS.

6. GENERAL.

B H	Watertight Bulkheads
B K	Bar keel
C	Equipment Numeral Diameter of chain cables in 16ths See Tables 20 and 23 in Steel Rules or Tables 126A–127 in Wood Rules

NOTICE

The Classification Committee of the American Bureau of Shipping has directed that:

In the classification of vessels built of wood, the assignment of a term of years and the "Half Time" surveys will be discontinued on and after January 1st, 1919.

After January 1st, 1919, wood vessels will be classed the same as steel vessels, namely, ✠A1Ⓔ; and Periodical Surveys will be held every four years instead of "Half Time" surveys as heretofore. Special surveys will be held as circumstances may require.

In the case, however, of wood vessels which were originally classed ✠A1Ⓔ and have lapsed from conditions warranting the continuance of Highest Class, a qualified classification of ✠A1½ will be assigned.

Subscribers are requested to note that:

Commencing January 1, 1923, the term of years heretofore in use with the symbol of class will hereafter be omitted.

The special surveys must be made every four years unless a shorter period is specified.

After November 5th, 1919, vessels intended for a particular trade, which have been built to scantlings especially arranged and approved by the Committee for that trade, will be distinguished in the Bureau's Record Book by the symbol ✠ A1 followed by certain words indicating the necessary limitations of trade as follows:

(a) GREAT COASTWISE—indicating that the vessel is approved for the navigation of all the coastal waters of North and South America, with the exception of Cape Horn and the Straits of Magellan.

(b) COASTWISE AND WEST INDIES—indicating that the vessel is approved for the navigation of the Eastern coastal waters of North America, the West Indies, and the north coast of South America not east of Trinidad, including the Gulf of Mexico and the Caribbean Sea.

(c) GREAT LAKES SERVICE—indicating that the vessel is approved for the unlimited navigation of the Great Lakes and their tributaries to the eastern limits of fresh water.

(d) Vessels which do not qualify under any of the foregoing limitations shall be given a Special Rating by the Bureau to be determined by the Classification Committee, indicating the particular trades or purposes or the geographical limits for which the vessels are intended. For example, "River Service," "Fishing Service," "Bays and Sounds," "Dredging," "New York to Boston," etc.

The ✠ prefixed to the class symbol denotes Vessels built under Supervision of the Bureau. No Vessel will be classed or rated unless surveyed and opened according to rules. The publication of the particulars of unclassed vessels is for general information only. As no surveys have been held on such vessels, no opinion is expressed as to their character.

The ✠ prefixed to the class symbol denotes Vessels built under Supervision of the Bureau. No Vessel will be classed or rated unless surveyed and opened according to rules. The publication of the particulars of unclassed vessels is for general information only. As no surveys have been held on such vessels, no opinion is expressed as to their character.

The ✠ prefixed to the class symbol denotes Vessels built under Supervision of the Bureau. No Vessel will be classed or rated unless surveyed and opened according to rules. The publication of the particulars of unclassed vessels is for general information only. As no surveys have been held on such vessels, no opinion is expressed as to their character.

The ✠ prefixed to the class symbol denotes Vessels built under Supervision of the Bureau. No Vessel will be classed or rated unless surveyed and opened according to rules. The publication of the particulars of unclassed vessels is for general information only. As no surveys have been held on such vessels, no opinion is expressed as to their character.
